

MINTO PARK
MANSFIELD, 3722.Mr Richard Warren
Oberon

9/1/84.

Dear Richard,

I caught the last half
of your forum on ABC Wagga today
your philosophies on initiating councils
with men & those of the Mountain
Cottlemen who are forced with
"conservation" & bureaucratic pressure
to come down to their level
"Why should the cottlemen have the
privilege when others can't" (- so take
it off them & done it up.)

If some type of strong base could
be developed; a lot of people would
align & develop the ideas put forward
in your talk. However I support the
type of people who do agree, (and there
are thousands)

are the type of people who are
already doing their own thing & using
their initiative & who want the type
of people to form associations, political
parties or whatever.

Anyway good luck & congratulations

Gene Honey.

PS Have you a copy of your
talk?
