

### **Support for cattlemen**

Good on the mountain cattlemen. I will back individuals having a go every time over so-called plans and government bureaucracy.

### **Keep alps clean**

Has anyone seen the mess that has been made of the New South Wales mountain country since cattle grazing was stopped and the Kosciusko National Park created? If that is what John Cain has in mind for the Victorian alps, he is literally barking up the wrong tree.

### **Free farm**

No wonder the cattlemen want to keep using our land. I would like a free farm too.

MARA HAYLER,

### **Guard our heritage**

Australia has so little living heritage, what we have should be safe guarded forever. Hands off the mountain cattlemen.

### **Snow insurance**

Further to Vincent Jerram's concern at the influx of missing skiers in the alps (27/8) surely an insurance levy imposed on all those wishing to enter into these regions would help offset the enormous cost of search and rescue operations both to the state and the taxpayer.
